

# Diagrams for In-Portal "Version Numbers" and "Development Wheel" are needed

Imported from: [http://groups.google.com/group/in-portal-design/browse\\_thread/thread/b9dc4d84db1c2496#](http://groups.google.com/group/in-portal-design/browse_thread/thread/b9dc4d84db1c2496#)

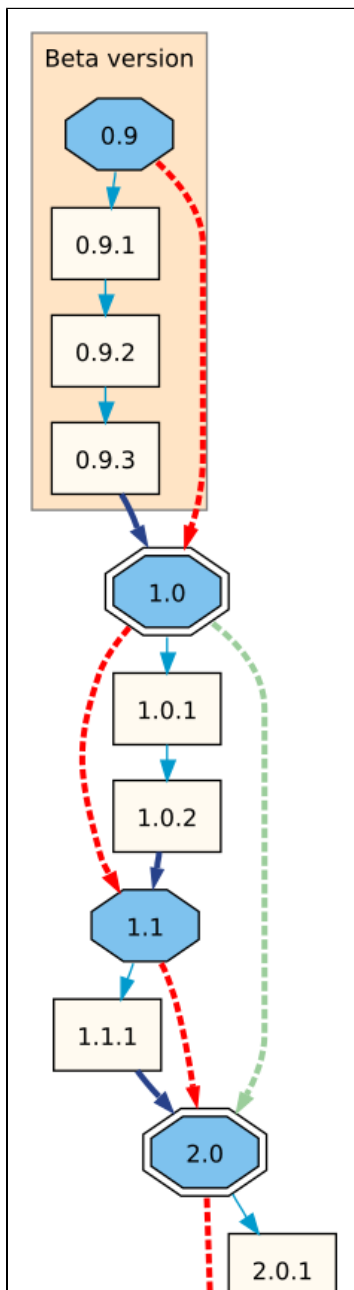

I call for Interfaces Team members to participate in this task.

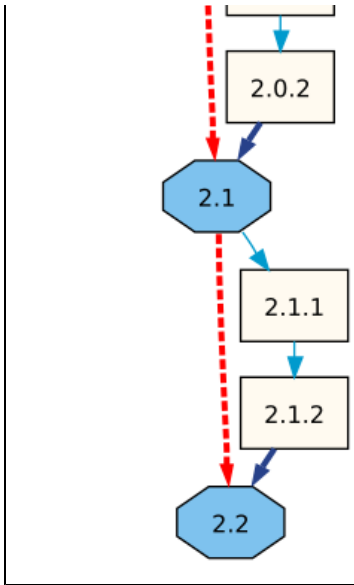

In-Portal Development Team would need some help on designing 2 diagrams:

## In-Portal "Version Numbers"

TODO: Remove Beta version with 0.x versions. We'll be starting with In-Portal 5.0.0 so we need to change versions to:

- 5.0, 5.0.1, 5.0.2 ... 5.0.N
- 5.1, 5.1.1, 5.1.2 ... 5.1.N
- 5.2, 5.2.1, 5.2.2 ... 5.2.N
- 6.0, 6.0.1, 6.0.2 ... 6.0.N

## In-Portal "Development Wheel"

TODO: Need to remove some wording in "Alpha" phase on Blue arrow. For now we are going to keep on Refactor & Develop, but remove other arrows and signs (ie. Framework, Extensions). The rest can stay as, but might change in the near future to better fit the project.

We have some 3rd party graphics available which can give us a good start and understanding of what we are looking for. We are ready to provide a list of things that needs to be changed in order to better suit In-Portal.

Unfortunately we don't have the sources for attached graphics...
