

# Nice mouse interaction plugin: hoverIntent

Imported From: [http://groups.google.com/group/in-portal-design/browse\\_thread/thread/fbd5a07a4ad4c5ca#](http://groups.google.com/group/in-portal-design/browse_thread/thread/fbd5a07a4ad4c5ca#)

Here is one nice mouse interaction plugin, that guesses if user really was really trying to move mouse over an object or just passing through: <http://cherne.net/brian/resources/jquery.hoverIntent.html>

More intelligent, then built-in "hover" event.
